PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The CLAFMA acquires District apparatus for the purpose of preserving the history of the fire service within the County of Los Angeles. The CLAFMA collects, restores, and preserves fire apparatus, equipment, artifacts, and documents from the District, as well as other County fire agencies for historical purposes. The vehicles it acquires are used in safety and public relations programs that utilize antique fire apparatus and equipment. The CLAFMA will accept this vehicle in an "as is" condition and is aware that it has mechanical and cosmetic problems and agrees to handle any and all required cosmetic repairs.

The District finds that this vehicle is considered surplus to the District's needs. Upon the Board's approval to donate this vehicle, the CLAFMA will initiate the transfer process.

The transfer of this fire truck to the CLAFMA will allow this vehicle to be preserved and made available to the men and women of the District and the public it serves through static exhibits, community events, and public fire safety programs. The CLAFMA works closely with the District's Public Information Office. In the past, surplus vehicles have been sold through public auction.

Implementation of Strategic Plan Goals

This action meets the County's Strategic Plan Goal of Service Excellence as it provides services to County residents served by the District through preservation of Fire Department history.

FISCAL IMPACT/FINANCING

This vehicle was purchased in 1961 and is no longer useful to the District, therefore its donation to the CLAFMA will have no fiscal impact on the District. There will be no cost to the District.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The District has determined that the 1961 Ford F600 truck is considered surplus and it would be an asset to the on-going operations of the CLAFMA. Transfer of title can be completed after the approval of your Board.

As the District may use this vehicle in its safety programs after the transfer, the District has agreed that any identification, decals, and markings may remain on the vehicle.

However, in the event that CLAFMA decides it wants to sell, transfer or dispose of the vehicle, CLAFMA would be responsible for the costs associated with the removal of any identification, decals, and markings. After removal, the CLAFMA will contact the District's Surplus Unit to confirm that all markings have been removed.

ENVIRONMENTAL DOCUMENTATION

The recommended actions are not subject to the provisions of the California Environmental Quality Act, as they will not result in a direct or reasonably foreseeable indirect, physical change in the environment in accordance with Section 15061 (b) (3) of the State of California Environmental Quality Act Guidelines.

IMPACT ON CURRENT SERVICES

This action is in the best interest of the District, and will have no significant impact on current services, as this vehicle is surplus to the needs of the District. The 1961 Ford F600 will benefit the staff of the District by being used in safety programs that utilize antique fire apparatus and equipment and will not be in competition with any existing District fire services.

CONCLUSION

Upon approval, please return two approved copies of this letter to the District. Please mail these copies to the attention of Gilbert Garcia, Support Services Bureau, at Consolidated Fire Protection District, 1320 North Eastern Avenue, Los Angeles, California 90063.

Respectfully submitted,

P. MICHAEL FREEMAN
